-TRISTAN AND ISOLDE ---

The people on Jersey City Heights talked good deal yesterday about the alleged spiriting away of Jessie McCorkle, a servant in Christ Hospital, but general opinion was that there had been no spiriting away. Jessie still remains in the Protestant Episcopal House of ercy, at the foot of West Eighty-sixth street, In this city, to which place she was taken from Bt. Phœbe's Mission, in Brooklyn, on Tuesday, Bister Mary of the House of Mercy told a reporter yesterday that the girl came to the House of her own free will and was staying

Mr. Wilkin of the Society for the Prevention of Cruelty to Children, in Brooklyn, sent her here," said Sister Mary. "She wasn't com-mitted to the place by any court. She is as free to go from here as you are. There is noth-ing in her condition or any reason why she is here to cause scandal."

A request of the reporter to see Jessie and talk with her was denied.

The reporter called at St. Phoebe's Mission.

in Brooklyn. Sister Latham, who was in charge sent down word that she would see him and the reporter was ushered into the parlor of the Institution. He waited until Sister Latham sent down word again that she had just returned from a walk and was very tired, and begged to be excused.

At Christ Hospital on Jersey City Heights Bister Alice said that Jessie McCorkie came into the hospital on July last as a servant. Nothing was known about the girl's past character except that she was not a bad girl. But the gave the Sisters at the hospital agreat deal of annoyance because she seemed to be fond of making eyes at gentlemen. She required soo much watching, and the Sisters were glad to get her off their hands. They were at first going to send her back to St. Phæbe's Mission, where they got her, but she said she did't want to go back there. Finally the Rev. Mr. Hebbard, the rector of Holy Trinity and the pastor of the hospital Sisters, took her into his house as a servant. She went there on Sept. 15, but it seems that the Rev. Mr. Hebbard didn't like her any better than the Sisters did, for he told her last Monday that she couldn't stay at his house any longer, and that he was going to rend'fher back to St. Phœbe's. Then Jessie ran away, and stayed until she was arrested with a girl friend who lives in Second avenue near Jersey avenue. It was at this time that she told storles about several gentlemen.

The Rev. Mr. Hebbard declined to see a reporter yesterday.

The Rev. Mr. Hebbard declined to see a reporter yesterday.

At Christ Hospital it was said the girl could not be telling the truth, and that circumstantial syidence proved that this was so. As for the doctor who left the hospital shortly after the girl did, it was simply because the time of his engagement at the hospital had expired. The fact that the girl had told stories about all the people with whom she had ever lived was enough, it was said, to discredit her.

Chief of Police Murphy of Jersey City said Mr. Hebbard and Sister Alice came to Police Headquarters to inquire about the girl just about the time that Policeman Harrington arrested her.

"Jessie ran up to Sister Alice in the station, shook hands with her, and seemed mightily

Jessie ran up to Sister Alice in the station, shook hands with her, and seemed mightly pleased to see her," said the Chief. "I told the girl that she was not a prisoner, but that Sister Alice wanted her to go to St. Pheebe's Mission, and that she could go there if she wanted to, "I'll go just where Sister Alice wants me to, she said. 'I'll go anywhere away from here.'

here.
"Then she went out with Mr. Hebbard and Bister Alice. She had nothing to do or to say to Mr. Hebbard at all. It is not true that a policeman secorted her to the ferry."
The physician mentioned above as having left the hospital says he often met Jessie in the way of business and spoke to her. but had nothing more to do with her. The girl is described as very pretty.

POLITICAL SCIENCE IN THE ACHOOLS. An Instructor Appointed for the New Even-ing High School.

A committee, of which Commissioner Seligman was Chairman, recommended, at yesterday's meeting of the Board of Education. the appointment of young Mr. Max A. Lesser as instructor in political science and history on the east side, in Grammar School 75. There were eight applicants, and Mr. Lesser got the highest mark in the examinations.

Commissioner Wood inquired if Mr. Lesser had any views on free trade and protection, and what they were. Mr. Seligman said he did not know, and suggested that Mr. Wood might himself enlighten the high school on these subjects. Mr. Lesser was appointed without a dissenting vote.

Commissioner Loomis offered a resolution, which was adopted, calling on the Comptroller to issue bonds to the amount of \$955.846, to wouch for the payment of five school buildings, one in the Eleventh, two in the Twenty-second, and one in the Twenty-hird ward. The resolution recommended the immediate issue of bonds to the amount of \$600.000. on the east side, in Grammar School 75. There

He then sent in his bill for the balance of \$480, which she declined to pay. He claimed that there was no agreement as to the price, and she claimed that the panels were understood to be at her ewa valuation, and she considered them worth \$100 and was ready to pay that amount, in her answer to the suit which Fernandes then brought aim further denied that the work done was within what was costemplated at the time of ordering. Mrs. De Barrios, who has been absent at Newpork, has now returned to her home at \$55 Fifth avenue.

A Good-looking Young Bookkooper Runs Off with a Belle of Montelair. Montclair has a quiet little sensation in the elopement of Miss Carrie Smith, the 19-year-old daughter of Mr. E. J. Smith, a diamond and jowelry dealer in this city, with Harry Hol-brook, the son of Mrs. A. P. Holbrook of Fullerbrook, the son of Mrs. A. P. Holbrook of Fullerton avenue. Harry is a good-looking young
bookkeeper and Carrie is one of the belies of
Montelair. They ran away on Monday, and
were married in this city by the Rev. C. C. Norton, a Baptist minister. Nobody in Montelair
knew anything about the matter until yesterday, when Mrs. Holbrook received a letter
from her son informing her that he had married Carrie and taken rooms for housekeeping
in East Twentieth street. Mrs. Holbrook was
very angry, and said that she and Miss Smith's
parents should have been consulted, as both
her son and Miss Smith were minors.

MISS CARRIE SMITH ELOPES,

STEPHEN W. DORSEY.

A Vivid Chapter from his Experience and the Valuable Lesson It Contains—A Few Timely Suggestions.

The coming political campaign is already an excitiv The coming political campaign is already as executing one. Both forces are nerving for the occasion, and all that political skill, foresight and energy can do is being done. One of the ablest managers is Senator Stephen w. Dorsey. Those who are acquainted with the Senator realize what a remarkable man he is, and that as Secretary of the National Republican Committee during the Garfield campaign, and as manager of the immense from interests he now has on hand, his abilities have never client her. But mercutary of the property of the committee of failed him. But, unfortunately, his physical system gave way a few years since, and he became a victim to the worst trouble which ever comes to man orwoman. Few men or women ever suffered more than Senator Dersey, and yet he is to day in the finest possible condition. This

scheme to him, but he would not consent to it. Milshof was delighted with the idea, however, and with Mrs. Horst, with whom he had been living at 209 East Seventy-flith street, moved to Hunter's Point, where they rented a couple of small rooms. The defendant then took out a policy in the Greenwich Company for \$275. Scharf and Milshof were to divide the profits. A few days later the fire occurred. Milshof made a schedule of his personal effects—clothing principally—estimating his loss at \$415.75. Mrs. Horst also had a policy and she claimed to have lost \$600. The company became suspicious and refused to pay. Meanwhile Scharf, supposing that Milshof had received the money from the company, threatened to kill him unless he divided. Schutz, who was present when this threat was made, advised Milshoft opay no attention to it, terming it a "bluf." Then, with an idea of saving himself, having acknowledged that he was a party to the swindle, Schutz went to the insurance adjusters, and, as he expressed it. "gave the whole snap away." Milshof was arrested and Scharf and Mrs. Horst left the city.

While in the Tombs Milshof wrote to Schutz, whom he supposed still his friend, asking him to testify in his favor at the trial, saying that the company could not prove anything if Schutz would swear right.

It was shown that Milshof had removed a trunk and a vallee, containing clothing and other effects, to Schutz's house before the fire, and they were produced in court, but the prisoner denied that they were his property, although the valise contained several bundles of letters addressed to him. The prisoner also denied all knowledge of the letter written in the Tombs. An expert compared the letter with two others which were admitted to have been written by the prisoner, and found the handwriting the same.

Schutz appeared to be very thankful that the opportunity to turn on his pals had been presented. He works at the repair shop of the Third Avenue Railrond, and is an Anarchist club in the city, and Milshof tried to become a and yet he is to day in the finest possible condition. This is what he says on the subject:

"Drs Hliss and Johnson of Washington directed me, a few years ago, to use Bethesda Water for severe kidney and bladder difficulties, and its effect was marvellous. I consider the water of the Hethesda Spring the best in the world for kidney and bladder troubles, and I have recommended it to many persons since my recovery. For all much diseases as I have named it is worth more than all the prescriptions and all the drugs."

But Senator Dorsey's experience in the use of Bethesda is not a solitary one. Every leading physician in America and such a solitary one. Every leading physician in America and such solitary one. is not a solitary one. Every leading physician in Ame ica orders its use when patients are attacked by kidney affections. Dr. Bliss knew its great value, and administred it to President Gardeld during that hot summer when the life of the Executive hung by a thread. No man, woman, or child ever faithfully used Betheada, even for minor complaints, without receiving benefit within twenty four hours. It is a beverage for the home, and the health of all families where it is regularly used invariably improves. Inasmuch as all reputable dealers hundle Bethesda, and as it is becoming so popular, it is not surprising that a marked decrease in kidner and blad-To a reporter he said, after the verdict had been rendered:

"Scharf was the Secretary of an Anarchist club in the city, and Milshof tried to become a member, but was rejected. That was how they first became acquainted. Scharf told mu I was foolish to work when I could make money easier by setting houses aftre. He told me that he had engineered more than twenty of these tres, and there was no fear of discovery. I did not want to get into trouble, so I refused to go into the scheme. Scharf told me that there were a good many men in his club who made a good living by doing the same thing?" ler complaints has been noticed by the various Boards of Health; and the proportion of delicate mothers and puny children in any community is invariably lessened where Bethesda is freely and constantly used. Such is Nature's remedy, pure, palatable, and yet power erful; a godsend to Senator Dorsey, a boon to physicians, and a blessing to all who use it.

tened the breaking up of the constitution than Catarra. The sense of smell, of taste, of sight, of hearing, the human voice, the mind—one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force and breaks up the most robust of constitution. Ignored, because but little understood, by most physiciana, mored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treasment of this terrible disease, by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his RADI-CAL CUITE has went the heart approach of them. CAL CURE has won the hearty approval of thousands. It is instantaneous in afording relief in all head colds, successing snuffling, and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, awardening the breath, restoring the senses of smell, teste, and hearing, and neutralising the constitutional tendency of the disease toward the lungs, lives, ional tendency of the disease toward the lungs, lives, and kidners.
